

# SINGLE PHASE PUMP CONTROL PANEL

## AQUA - B50

KELTRON presents a newly designed Single phase pump Control Panel, engineered to deliver efficient and reliable control of Single phase Open-well Pump systems. This new product is for controlling the water pumps in open well and contains motor start capacitor circuitry. The newly designed water pump control panel box ensures efficient control of pump operations with enhanced safety features. It is compact, user friendly, and suitable for single phase open well pump systems.

### Product Specifications

Specification	Details
Product Type	Single-Phase Control Panel For Open-Well Pump
Model	AQUA - B50
Voltage	230VAC/50 Hz
Product Range	For 1HP Pumps
MCB Rating	16 Amp
Running Capacitor	50µF
Application	For Household Purpose, Commercial Building, Farms etc...
Dimension (in cms)	17(L)x13(W)x6.5(H)
Weight	0.5 kg
